The Journal of Neurology and Psychopathology

VOLUME XVII, 1936-37

INDEX

INDEX

A

ABRAMSON, J. L.: Pyknolepsy, 354
Acalculia (Henschen), and congenital arithmetic disability (Eric Guttmann), 185
Accidents, purposive, as an expression of self-destructive tendencies (Karl A. Menninger), 85
Acetylcholine, effect of on the somatic symptoms of anxiety (Maxwell Shaw Jones), 382
ACKERLY, SPAFFORD: Instinctive, emotional and mental changes following prefrontal lobe extirpation, 183
Acromicria (M. Bergonzi), 359
Action, automatic, degrees of: some psychiatric applications of Hughlings Jackson's concept of 'reduction to a more automatic condition' (Max Levin), 153
Alexia, traumatic (A. Rendle Short), 74
ALLEN, I. M. (and J. O. MERCER): Spinal symptoms with lymphadenoma, 1
ALPERS, B. J.: Hyperthermia due to lesions in the hypothalamus, 339
Amaurotic idiocy, infantile, neuropathology of a type of hitherto undescribed (M. Bielschowsky), 345
Amaurotic idiocy and lipoidoses, 328
ANDERSON, E. W.: Prognosis of the depressions of later life, 377
ANGUS, LESLIE R.: The hæmatoporphyrin treatment of depressive psychoses, 88
Anxiety, somatic symptoms of, effect of acetylcholine on (Maxwell Shaw Jones), 382
Aorta, congenital stenosis of: cerebral complications (B. Fine-silver), 348
Aphasia, traumatic (A. Rendle Short), 74
APPEL, KENNETH E.: Prognosis in the psychoses lying midway between schizophrenia and manic-depressive psychoses, 377
Apraxia (W. Mayer-Gross), 352
Apraxia, constructive (L. van der Horst), 352
Aqueduct of Sylvius, congenital atresia and stenosis of (H. N. Roback and M. L. Gerstle), 347
ARING, C. D.: Relation of the cerebrum to the cerebellum, 336
ARMENISE, P.: Necessity of a structural analysis in the psychoses: paranoia and hysteria in cyclothymia, 369
ARNESON, A. N.: Roentgen treatment of gliomas, 361
ASHBY, W. R.: Tissue culture methods in the study of the nervous system, 322
ASK-UPMARK, E.: *The Carotid Sinus and the Cerebral Circulation*, review, 92
Association-motor investigation of the psychoneuroses (Clarke H. Barnacle, Franklin G. Ebaugh and Frederick Lemere), 364, 376
Astasia-abasia and speech preservation following carbon monoxide intoxication (Louis H. Cohen), 41
ATLAS, D. (H. W. MAGOUN, E. H. INGERSOLL and S. W. RANSON): Associated facial, vocal and respiratory components of emotional expression, 241
Autonomic system, conduction of cortical impulses to (E. A. Spiegel and W. C. Hunsicker), 337
AVERBUCK, S. H.: Catalepsy or flexibilitas cerea in a three-year-old child, 81
Avitaminosis and the nervous system, 77
AYKROYD, W. R.: *Vitamins and other Dietary Essentials*, second edition, review, 287

B

Bacillus coli agglutinations by the serum of psychotics, especially of schizophrenics (A. Beck, W. Ogden and M. Whelen), 85
BAHR, M. A.: The Parkinsonian syndrome due to chronic epidemic encephalitis (von Economo type), 183
Balance in volitional activity (M. F. Lowe), 362
Bancroft's views on mental disease (Purcell G. Schube), 384
Barbitone narcosis. *See* Narcosis
BARNACLE, CLARKE H.: Association-motor investigation of the psychoneuroses, 364
BECCLE, H. C.: Hæmatology of the psychoses, 88
BECK, A.: The agglutinations of B. coli by the serum of psychotics, especially of schizophrenics, 85—Problem of immunity against spirochæta pallida in general paralytics treated with malaria, 190
Behaviour problems, pituitary disturbances in (Matthew Molitch and S. Poliakoff), 86
BELLONI, G. B.: Method for impregnation of microglial elements and a standard technique for common histological researches on the nervous system, 334
BENDER, L.: Reactive psychosis in response to mental disease in the family, 370—Psychiatric mechanisms in child murderers, 374
BENNET, A. E.: Value of insulin treatment in undernourished psychiatric patients, 191
Benzedrine on depressive states, effects of (E. Guttmann), 380
Benzedrine therapy on self-absorbed patients, effect of (Eugene Davidoff), 380
BERGONZI, M.: Acromicria, 359
BERLUCCHI, C.: Researches on the nerve cells of the corpus striatum, 333
"Betaxin" (vitamin B_1), injections in neurological cases (H. Neumann), 83
BIELSCHOWSKY, M.: Neuropathology of a type of infantile amaurotic idiocy hitherto undescribed, 345
Binet-Simon and Porteus Maze tests in neuropsychiatric patients, intelligence quotients of (Joseph J. Michaels and Margaret E. Schilling), 375
BINI, G.: Familial myopathic progressive muscular dystrophy, 357
BLACK, NEIL D.: Value and application of hydrotherapy in a mental hospital, 91
BLALOCK, JOSEPH R.: Psychology of the manic phase of manic-depressive psychosis, 367
BLAU, A.: Catalepsy or flexibilitas cerea in a three-year-old child, 81—Mental changes following head trauma in children, 86, 373
Blood calcium in 'idiopathic' epilepsy (R. L. Haviland Minchin), 314
Blood flow, cerebral, constancy of (W. G. Lennox), 337
Blood plasma in mental disease, tryptophane content in (A. Campana), 377
Blood pressure reactions and galvanic skin reflex in the psychoneuroses (A. P. Solomon and T. L. Fentress), 364
Blood serum, calcium content of, during an epileptic convulsion (M. Scott and A. W. Pigott), 343
BONNER, CLARENCE A.: Traumatic psychoses, 84
BOSHES, BENJAMIN: Possible relation of lead intoxication to multiple sclerosis, 278

Boston Psychopathic Hospital, dementia paralytica at (Merrill Moore and H. Houston Merritt), 376
BOUMAN, K. H. (and V. W. D. SCHENK): A cyclops and a synotus, 48
BRACKLAND, FRANCIS J.: Hæmatoporphyrin therapy in the affective psychoses, 381
Brain centres, researches in for regulation of vegetative function (L. Riccitelli), 336
Brain lesions and liver, relation between (H. Stadler), 346
Brain, mid, in mammals, comparative anatomical investigation of (E. Grunthal), 334
Brain sections, macroscopic, simple method of staining of (H. E. Le Masurier), 333
Brain, telangiectases, multiple, of (J. C. Michael and P. M. Levin), 350
BRAM, O. ISRAEL: *Exophthalmic Goitre and its Medical Treatment*, second edition, review, 288
BREND, WILLIAM A.: *Sacrifice to Attis: A study of sex and civilization*, review, 94
BRIGGART, J. HENRY: *Pathology of the Nervous System*, review, 287
BRODER, SAMUEL B.: Sleep induced by sodium amytal: an abridged method for use in mental illness, 384
BROGGI, E.: Culture of tubercle bacillus in blood and cerebrospinal fluid of dementia præcox cases, 366
BROMBERG, WALTER: Attitude of psychoneurotics towards death, 363
BUCKLEY, A. C.: Hæmatomyelia secondary to hæmangioma, 355

C

Calcium content of blood serum during an epileptic convulsion (M. Scott and A. W. Pigott), 343
Calvarial hyperostosis and the accompanying symptom-complex (Sherwood Moore), 349
CAMPANA, A.: Psychic symptomatology of cerebral tumours, 373—Content of tryptophane in the blood plasma in mental disease, 377
CANAVAN, MYRTELLE M.: Mental health of children of dementia præcox stock, 368
CANZIANI, G.: Pathological neuroglia in man, 339—Normal neuroglia which might be confused with pathological neuroglia, 340
Carbon monoxide intoxication, speech preservation and astasia-abasia following (Louis H. Cohen), 41
Carcinomatosis of meninges simulating pachymeningitis hæmorrhagica interna (A. G. Dumas and L. E. Nolan), 355
CARDONA, F.: Cerebral macroglia in status epilepticus, 341—Pathogenesis of the diffuse glial reaction in cerebral tumour, 341—Tumours of the septum pellucidum, 351
CARNS, M. L.: Postoperative psychosis, 370
CARR, A. D.: Neuropsychiatric syndromes associated with hyperostosis frontalis interna, 350
Catalepsy or flexibilitas cerea in a three-year-old child (A. Blau and S. H. Averbuck), 81
Cerebellum, function of, from a clinical standpoint (K. Goldstein), 184
Cerebellum, relation of to cerebrum (C. D. Aring and J. F. Fulton), 336
Cerebral blood flow, constancy of (W. G. Lennox), 337
Cerebral circulation, new points in its anatomy, physiology and pathology (Tracy J. Putnam), 193
Cerebral cortex, effects of total removal of (F. A. Mettler, C. C. Mettler and E. Culler), 338
Cerebral cortex, vascular changes following experimental lesions in (Yei-Chiian Tsang), 337
Cerebral hæmorrhage. *See* Hæmorrhage
Cerebral hemisphere, left, removal of (Robert Zollinger), 353
Cerebral lesions, problem of general as against focal symptoms in (W. Mayer-Gross and E. Guttmann), 184
Cerebral tumour. *See* Tumour
Cerebral varices, ruptured (L. T. Tureen, S. H. Gray and Paul Wheeler), 276
Cerebrospinal fluid in 'essential' epilepsy (W. G. Lennox and H. H. Merritt), 97
Cerebrospinal fluid in tumours of the brain (H. H. Merritt), 277
Cerebrum, relation of to cerebellum (C. D. Aring and J. F. Fulton), 336
Charcot joints, medical and surgical aspects of (Samuel H. Epstein), 187
CHEAVENS, TOM H.: Prolonged barbitone narcosis in treatment of acute psychoses, 381
CHEN, M. P.: Insulin treatment of drug addiction, 382
CHENEY, CLARENCE O.: Programme for the determination of the therapeutic effectiveness of the psychoanalytic method, 90
CH'ENG, Y. L.: Insulin treatment of drug addiction, 382
Chorea, constitutional aspects of (E. Guttmann), 16
Choreas, gliosis of the occipital lobes in the (Charles Davison), 183
Circulation, cerebral: some new points in its anatomy, physiology and pathology (Tracy J. Putnam), 193
CLARK, RAYMOND: Mental health of children of dementia præcox stock, 368
CLINE, WILLIAM B.: Treatment of delirium tremens, 382
COBB, STANLEY: *A Preface to Nervous Disease*, review, 285
COHEN, LOUIS H.: Speech preservation and astasia-abasia following carbon monoxide intoxication, 41
COLELLA, R.: A new treatment of cerebral hæmorrhage and of its effects, 188
COLEMAN, JULES V.: Treatment of delirium tremens, 382
Convulsion, epileptic, calcium content of blood serum during (M. Scott and A. W. Pigott), 343
Convulsions, hæmatology of (Arthur Guirdham), 343
Corpus callosum, primary degeneration of (Marchiafava's disease) (L. S. King and M. C. Meehan), 281
Corpus striatum, nerve cells of, researches on (C. Berlucchi), 333
Cortex, cerebral, effects of total removal of (F. A. Mettler, C. C. Mettler and E. Culler), 338
Cortical impulses, conduction of, to the autonomic system (E. A. Spiegel and W. C. Hunsicker), 337
COSSA, PAUL: *Physiopathologie du Système Nerveux*, review, 286
COSTANTI, E.: Culture of tubercle bacilli in blood and cerebrospinal fluid of dementia præcox cases, 366
COURVILLE, C. B.: Neurological findings in mastoiditis, 82
CULLER, E.: Effects of total removal of the cerebral cortex, 338
CURNER, E. C.: Electromyographic study of myotonia, 357
CURTI, G.: Forced grasping and the physiological phenomena of holding, 352
Cushing's disease (C. Pero), 187
Cyclops, a (K. H. Bouman and V. W. D. Schenk), 48
Cyclothymia, paranoia and hysteria in (P. Armenise), 369
Cysts, paraphysical (A. J. McLean), 342

D

Danielopolu test and galvanic skin reflex in psychoneurotic patients (T. L. Fentress and A. P. Solomon), 365
DAVIDOFF, EUGENE: Effect of benzedrine therapy on self-absorbed patients, 380
DAVISON, CHARLES: Gliosis of the occipital lobes in the choreas, 183—Spontaneous pain and other subjective sensory disturbances, 279
DAYTON, NEIL A.: Marriage and mental disease, 375
Death, attitude of psychoneurotics towards (Walter Bromberg and Paul Schilder), 363

DE JONG, R. N.: Central nervous system involvement in undulant fever, 358
Delirium tremens, treatment of (William B. Cline and Jules V. Coleman), 382
Dementia paralytica at the Boston Psychopathic Hospital (Merrill Moore and H. Houston Merritt), 376
Dementia præcox appearing in individuals already suffering from insufficiency of mental development (V. Tronconi), 368
Dementia præcox, culture of tubercle bacilli in blood and cerebrospinal fluid in cases of (E. Broggi and E. Costanti), 366
Dementia præcox stock, mental health of children of (Myrtelle M. Canavan and Raymond Clark), 368
Dementia præcox, vitamins A and D and mineral administration in, effects of (J. Notkin, Frances Krasnow, Viola Huddart, William J. Thompson and Lloyd E. Watts), 90
Depression, endogenous, hæmatoporphyrin treatment of (J. Huehnerfeld), 190
Depression diagnosed by the Rorschach test (Arthur Guirdham), 367
Depressions of later life, prognosis of (E. W. Anderson), 377
Depressive psychoses. *See* Psychoses
Depressive states, effect of benzedrine therapy on (E. Guttmann), 380
Diabetes insipidus, relation of the hypothalamico-hypophyseal system to (C. Fisher, W. R. Ingram and S. W. Ranson), 275
Dietary deficiencies as the ætiological factor in certain neurological syndromes (O. C. Perkins), 358
Disability, arithmetic, congenital, and acalculia (Henschen) (Eric Guttmann), 185
Donaggio's method in histological research on the neurohypophysis in man (A. Trossarelli), 333
Dream contents, sex differences in (Richard Wellington Husband), 362
Drug addiction, insulin treatment of (M. P. Chen, Y. L. Ch'eng and R. S. Lyman), 382
DUMAS, A. G.: Carcinomatosis of meninges simulating pachymeningitis hæmorrhagica interna, 355
DUSSIK, K. T.: Results of treatment by hypoglycæmic shock in schizophrenia, 375
Dystrophy, muscular, progressive, familial myopathic (G. Bini), 357
Dystrophy, muscular, progressive, with special reference to the autonomic nervous system (Ken Kure, Shigeo Okinaka and Kenzo Ohshima), 345

E

EAGER, RICHARD: *Hints to Probationer Nurses in Mental Hospitals*, review, 95
EAST, W. NORWOOD: *Medical Aspects of Crime*, review, 92
EBAUGH, FRANKLIN G.: Association-motor investigation of the psychoneuroses, 364, 376
EIDELBERG, LUDWIG: Study of slips of the tongue, 363
ELKIND, HENRY B.: Alleged increase in the incidence of the major psychoses, 369
Emotional expression, associated facial, vocal and respiratory components of (H. W. Magoun, D. Atlas, E. H. Ingersoll and S. W. Ranson), 241
Encephalitis, chronic epidemic (von Economo type), Parkinsonian syndrome due to (M. A. Bahr), 183
Endocrinology, modern, and mental disorder (Thomas D. Power), 191
Epilepsies, the (Foster Kennedy), 80
Epilepsy, cortical autonomic (J. W. Watts and C. H. Frazier), 81
Epilepsy, 'essential,' the cerebrospinal fluid in (W. G. Lennox and H. H. Merritt), 97
Epilepsy, essential, and cranial X-ray diagnosis, relations between (G. Gastaldi), 354
Epilepsy, 'idiopathic,' the blood calcium in (R. L. Haviland Minchin), 314
Epilepsy and surgical therapy (W. Penfield), 360
Epileptic manifestation, a rare (P. Serra), 81
Epileptic and schizophrenic patients, comparison of weights of brain, liver, heart, spleen and kidneys in, 366
Epileptogenous agents, fundamental effects of upon the central nervous system (E. A. Spiegel and M. Spiegel-Adolf), 182
EPSTEIN, SAMUEL H.: Medical and surgical aspects of Charcot joints, 187—General paresis: treatment by tryparsamide-induced fever sequence, 189

F

FENTRESS, T. L.: Galvanic skin reflex and blood pressure reactions in the psychoneuroses, 364—Galvanic skin reflex and Danielopolu test in psychoneurotic patients, 365
Fever, tryparsamide-induced, in treatment of general paresis (H. C. Solomon and S. H. Epstein), 189
Fever, undulant, central nervous system involvement in (R. N. de Jong), 358
FINE-SILVER, B.: Congenital stenosis of the aorta, 348
Fisher, C.: Relation of hypothalamico-hypophyseal system to diabetes insipidus, 275
FRAZIER, C. H.: Cortical autonomic epilepsy, 81
Frontal association areas in the primates, analysis of the functions of (C. F. Jacobsen, J. B. Wolfe and T. A. Jackson), 335
Frontal lobes, significance of, for mental performances (Kurt Goldstein), 27

G

GASTALDI, G.: Regeneration of the nervous system in the higher vertebrates, 181—Relations between cranial X-ray diagnosis and essential epilepsy, 354
Genius, propensity of to solitude (Warren C. Middleton), 83
GERSTLE, M. L.: Congenital atresia and stenosis of the aqueduct of Sylvius, 347
Gliomas, roentgen treatment of (E. Sachs, J. E. Rubinstein and A. N. Arneson), 361
Gliosis of the occipital lobes in the choreas (Charles Davison), 183
GOLDSTEIN, KURT: Significance of the frontal lobes for mental performances, 27—Function of the cerebellum from a clinical standpoint, 184
GORDON, A.: Visual field defects as a deciding diagnostic factor in lesions of temporal lobe simulating cerebellar involvement, 351
GORDON, I.: The sensation of vibration, 107
GORDON, R. G. (N. G. HARRIS and J. R. REES): *An Introduction to Psychological Medicine*, review, 283
Grasping, forced, and the physiological phenomena of holding (G. Curti), 352
GRAY, S. H.: Ruptured cerebral varices, 276
Group therapy and the psychiatric clinic (L. C. Marsh), 383
GRUNTHAL, E.: Comparative anatomical investigation of the mid-brain in mammals, 334
GUILLAIN, GEORGES: *Études Neurologiques*, sixth series, review, 93
GUIRDHAM, ARTHUR: Hæmatology of convulsions, 343—Diagnosis of depression by the Rorschach test, 367
GUTTMANN, E.: Some constitutional aspects of chorea and its sequelæ, 16—Problem of general as against focal symptoms in cerebral lesions, 184—Congenital arithmetic disability and acalculia (Henschen), 185—Effect of benzedrine therapy on depressive states, 380

H

Hæmatology of the psychoses (H. C. Beccle), 88
Hæmatoma, subdural chronic, of traumatic origin, diagnosis of (G. S. Hall), 262

Hæmatomyelia secondary to hæmangioma (A. C. Buckley), 355
Hæmatoporphyrin therapy in the affective psychoses (Edward A. Strecker, Harold D. Palmer and Francis J. Braceland), 381
Hæmatoporphyrin treatment of depressive psychoses (Leslie R. Angus), 88
Hæmatoporphyrin treatment of endogenous depression (J. Huehnerfeld), 190
Hæmatoporphyrin treatment of melancholia (J. Huehnerfeld), 190
Hæmatoporphyrin treatment of severe depressions (D. Louis Steinberg), 88
Hæmorrhage, cerebral, new treatment of, and its effects (R. Colella and G. Pizzillo), 188
HALL, G. S.: Diagnosis of chronic subdural hæmatoma of traumatic origin, 262
Hallucinations, auditory, in prison psychoses (Rudolph Schwarz), 84
Hallucinations in psychoses (J. M. Hill), 372
HAMPEL, E.: Hemiballismus on a luetic basis, 355
HARRIS, N. G. (R. G. GORDON and J. R. REES): *An Introduction to Psychological Medicine*, review, 283
Headache, post-traumatic, and subdural traction (W. Penfield and N. C. Norcross), 280
Head injuries in children, mental changes following (Abram Blau), 86
Heme bodies (Rosenthal fibres) associated with cavities in pons and cerebellum and acoustic neurinoma (Amour F. Liber), 305
Hemianalgesia, contralateral, total, in cases of vascular lesions of the medulla and pons (J. A. Luhan), 354
Hemiballismus on a luetic basis (E. Hampel), 355
HENNELLY, T. J.: Prolonged narcosis in manic-depressive psychosis, 379
HENRY, G. W.: *The Essentials of Psychopathology*, review, 283
HERTZMAN, JACK: Functional psychoses in children, 369
HILL, J. M.: Hallucinations in psychoses, 372
HIROISI, S.: Origin of senile plaques, 346
Hoch's benign stupor cases (R. L. Rachlin), 372
Holding, physiological phenomena of, and forced grasping (G. Curti), 352
HORRAX, G.: Occurrence of trigeminal neuralgia in patients having multiple sclerosis, 185
HORSLEY, J. S.: Narco-analysis, 378
HUDDART, VIOLA: Effect of vitamins A and D and mineral administration in dementia præcox, 90
HUEHNERFELD, J.: Hæmatoporphyrin treatment of melancholia and endogenous depression, 190
HUNSICKER, W. C.: Conduction of cortical impulses to the autonomic system, 337
HUNT, ROBERT C.: Prognosis in the psychoses lying midway between schizophrenia and manic-depressive psychoses, 377
HUSBAND, RICHARD WELLINGTON: Sex differences in dream contents, 362
Hydromyelia, results of operative treatment in (H. Kuhlendahl), 362
Hydrotherapy in a mental hospital, value and application of (Neil D. Black), 91
Hyperostosis, calvarial, and the accompanying symptom-complex (Sherwood Moore), 349
Hyperostosis frontalis interna associated with neuropsychiatric syndromes (A. D. Carr), 350
Hyperthermia due to lesions in the hypothalamus (B. J. Alpers), 339
Hypoglycæmic shock in treatment of schizophrenia (K. T. Dussik and M. Sachel), 379
Hypothalamico-hypophyseal system, relation of to diabetes insipidus (C. Fisher, W. R. Ingram and S. W. Ranson), 275
Hypothalamus, hyperthermia due to lesions in the (B. J. Alpers), 338
Hysteria and paranoia in cyclothymia (P. Armenise), 369

I

Idiocy, amaurotic, infantile, neuropathology of a type of hitherto undescribed (M. Bielschowsky), 345
Idiocy, amaurotic, and lipoidoses, 328
INGERSOLL, E. H. (H. W. MAGOUN, D. ATLAS and S. W. RANSON): Associated facial, vocal and respiratory components of emotional expression, 241
INGRAM, W. R.: Relation of hypothalamico-hypophyseal system to diabetes insipidus, 275
Insulin treatment of drug addiction (P. P. Chen, Y. L. Ch'eng and R. S. Lyman), 382
Insulin treatment in undernourished psychiatric patients, value of (A. E. Bennet and Elvin V. Semrad), 191

J

JACKSON, T. A.: Experimental analysis of the functions of the frontal association areas in primates, 335
JACOBSEN, C. F.: Experimental analysis of the functions of the frontal association areas in primates, 335
Joints, Charcot, medical and surgical aspects of, (Samuel H. Epstein), 187
JONES, MAXWELL SHAW: Effect of acetylcholine on the somatic symptoms of anxiety, 382
JOWETT, R. E.: Sinus sepsis and mental disorder, 87
